Olympia, WA 98504-1012

Re: Public Body GC/CM & Design - Build Certification Determination

Dear Mr. Lynch:

The Capital Projects Advisory Review Board's Project Review Committee has determined that the Department of General Administration has met the criteria established in RCW 39.10.270 for public body GC/CM and Design - Build certification.

As of October 25th, 2007 the Department of General Administration is authorized to utilize GC/CM and Design - Build contracting procedures for projects with a total project cost of ten million dollars or more for a period of three years.

The Department of General Administration's certification will extend through October 25th, 2010. Please submit your application for re-certification to the Project Review Committee at least three months prior to the initial expiration date. You can contact Roland Orr at (360) 902-7239 if you have any questions regarding this process.

You are requested to provide notification to CPARB when General Administration approves future GC/CM or Design-Build projects and to provide project data per the CPARB requirements. Please immediately identify your point of contact for supplying required project data information to CPARB staff, Adam Lawrence, at ALawren@ga.wa.gov. Your point of contact will be notified when CPARB's data collection system is ready for input.

Congratulations on your approval of your application!

Sincerely,

Rodger Benson, Chair
Project Review Committee

cc: Eric Smith - PRC Vice Chair, Orland Orr
